

## Service

Wendt and Sons Construction Inc. has been providing general contracting services for the petroleum industry to oil companies and independent service station operators throughout the Northern California area for over 23 years.

Located at 3861 Duck Creek Dr. Stockton, California 95215, Wendt Construction is poised to provide services to virtually any area of California economically and efficiently. Our company employs a fully trained staff of field technicians, supported by a knowledgeable office staff to address all of your construction needs.

Wendt Construction offers a comprehensive range of services to include complete site development, construction of Convenience Stores, Carwashes, Gas Stations and fast food offerings, site grading, underground utilities, tank and fuel system installation, electrical, plumbing, mechanical, asphalt and concrete paving.

We also supply complete site demolitions including tank and line removal and excavation and disposal of contaminated materials.

We are dedicated to providing excellent customer service in an environment where safety is our number one focus.
